PUBLIC NOTICE

Date of Issue: 07 February 2026

Maintenance at Genoa Water Treatment Plant

Subject: Unplanned Bulk Water Shutdown – 07-09 February 2026

The Mantsopa Local Municipality is committed to providing reliable, high-quality water services to our community. To ensure the long-term sustainability of our water supply and to prevent unexpected failures, critical maintenance work will be conducted for the Genoa Water Treatment Plant.

WHY IS THIS HAPPENING?

Emergency Maintenance Alert 📢

This is emergency maintenance necessary to protect infrastructure, improve plant efficiency, and ensure readiness for peak demand seasons. Similar to servicing a car, this maintenance is vital to prevent major, long-term, and unplanned service breakdowns.

WHEN WILL THE INTERRUPTION OCCUR?

The system will be shut down from **07 February 2026** to **09 February 2026**.

AREAS AFFECTED

All areas served by Genoa Water Treatment Plant of Mantsopa Local Municipality, specifically:

- Greater Ladybrand areas

IMPACT ON CONSUMERS

During this period, residents and businesses may experience:

- No water supply
- Low water pressure

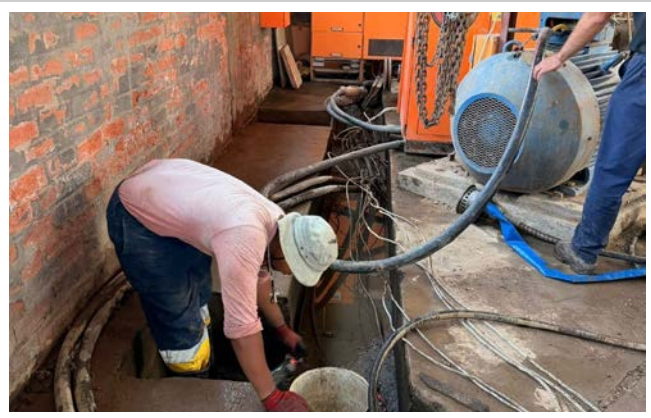

MITIGATING STRATEGIES

Water Tankering services will be deployed to affected areas during the shutdown period.
